Appl. No.: 10/509,436

Filing Date: April 10, 2003

Title: METHOD AND ARRANGEMENT FOR TOUCHLESS DETECTION OF DATA OF UNEVEN SURFACES

Attorney Docket No.: 5040.1004

Pub. No.: US 2005/0117784 A1

Pub. Date: June 2, 2005

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), filed on August 8, 2005, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains material errors, as the title on the front page of the publication "METHOD AND ARRANGEMENT FOR TOUCHLESS DETECTION OF DATA OF UNEVEN SURFACES" is misprinted as "System for High Contrast Contactless Representation of Strips of the Skin" and the inventor Rudolf Huake is missing from the list of the inventors.

This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221 (a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18 (d) and the processing fee set forth in § 1.17 (i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18 (d) will be refunded.
